

## Hanging Baskets 2012 Order Form

Spring is here again and the time has come to order your hanging baskets.

Following the success of the scheme last year we are again using the new style basket with a water reservoir built in. This will retain the water, stop it pouring through onto the pavement, giving plants a much better change of survival and providing an improved display making your investment much more worthwhile.

It is costing the Association in excess of £5,000 to switch to the new style baskets. So we are giving you the opportunity chip in a little extra towards this expense, for the good of the town. This is completely discretionary but would be much appreciated.

Orders in by Friday 18th of May. Baskets to be hung in early June
